esalettertexas.com — Content Structure & Development Spec

Version: v1 **Source:** ESA Letter Texas — Full Site Silo Structure & Blog Content Plan **Audience:** Web developer / implementation team

This document translates the SEO silo plan into a build spec: page templates, reusable modules, and the section-by-section content structure for every URL. Copywriting is supplied separately — this defines the **containers** the copy drops into.

---

1. How to read this document

- **Templates (T1–T10)** define page layouts. Every URL is assigned one template.
- **Modules (M1–M14)** are reusable components. Build each once, reuse across templates.
- **Content structure tables** list the sections each page must contain, in order.
- Anything marked **[REQUIRED]** must exist on every page using that template. **[OPTIONAL]** is per-page.

Recommended stack note: WordPress (or any CMS) with custom post types — `page`, `post`, plus taxonomies for `conditions`, `locations`, and blog `category`. Silos are folder-based, so URL structure must be manually controllable per page.

---

2. Global elements

2.1 Header [REQUIRED on all pages]

Element	Detail
Logo	Links to `/`
Primary nav	How It Works · Requirements · Your Rights · Do I Qualify? · Locations · Blog · FAQ
CTA button	"Get Your ESA Letter" → `/apply-now/` (sticky on mobile)
Phone / support link	Optional, right-aligned

Nav mapping:

- *How It Works* → `/how-it-works/`
- *Requirements* → `/requirements/`
- *Your Rights* → `/rights/` (dropdown: top 5 cluster pages)
- *Do I Qualify?* → `/conditions/` (dropdown: top 5 conditions)
- *Locations* → `/locations/` (dropdown: 5 cities)
- *Blog* → `/blog/`

2.2 Footer [REQUIRED on all pages]

Four columns:

1. **Core** — What Is an ESA Letter, How to Get One in Texas, Requirements, Sample Letter, Cost, Renewal
2. **Your Rights** — Fair Housing Act, HB 4164, ESA vs Service Animal, No-Pet Apartments, Landlord Denials
3. **Qualifying Conditions** — Anxiety, Depression, PTSD, ADHD, Autism, + "See all conditions"
4. **Company** — About Our Therapists, How It Works, FAQ, Blog, Contact, Privacy Policy, Terms, Disclaimer

Footer bottom: legal disclaimer line (see §7.4), copyright.

2.3 Breadcrumbs [REQUIRED on all pages except Home]

Visible breadcrumb trail + `BreadcrumbList` schema.

```
Home > Your Rights > Texas HB 4164 Explained
Home > Conditions > Anxiety
Home > Locations > Houston
Home > Blog > ESA Laws & Housing Rights > [Post Title]
```

---

3. Reusable modules

Build these once as components/blocks. Referenced by ID throughout §5.

ID	Module	Description
M1	Hero	H1 + subhead + primary CTA + trust badges.

		Variants: full (home), compact (inner pages)
M2	Trust bar	Licensed TX therapists · HIPAA compliant · Money-back guarantee · Turnaround time
M3	3-Step Process	Numbered steps: Take assessment → Therapist review → Receive letter
M4	Inline CTA band	Headline + button → `/apply-now/`. Repeats mid-page
M5	FAQ accordion	Question/answer repeater. Outputs `FAQPage` schema
M6	Silo child-page grid	Card grid auto-listing child pages of the current silo
M7	Latest from the Blog	Auto-pulls 3–4 newest posts from a mapped blog category. **Required on all 3 pillar pages**
M8	Related pages block	Manually curated 3–5 internal links, sidebar or end-of-content
M9	Callout / alert box	Styled note for legal warnings, scam alerts, key takeaways
M10	Comparison table	Two- or three-column responsive table (e.g. ESA vs Service Animal)
M11	Author / reviewer box	Name, credentials, license state, “Medically reviewed by” + date
M12	Sample letter viewer	Annotated document image/HTML with callout pins
M13	Pricing block	Price, inclusions list, refund policy, CTA
M14	City info panel	Local housing stats, local rules, nearby resources (city pages only)

4. Page templates

ID	Template	Used by
T1	Homepage (pillar for “ESA letter Texas”)	`/`
T2	Core informational page	6 core pages
T3	Silo pillar	`/rights/`, `/conditions/`, `/locations/`
T4	Silo cluster page	All `/rights/*` pages
T5	Condition page	All `/conditions/*` pages
T6	City page	All `/locations/*` pages
T7	Blog hub	`/blog/`
T8	Blog category archive	6 category URLs
T9	Blog post	All posts
T10	Support / utility page	`/faq/`, `/how-it-works/`, `/about-our-therapists/`, `/apply-now/`

T1 — Homepage

1. M1 Hero (full) — H1: *ESA Letter Texas*
2. M2 Trust bar
3. M3 3-Step Process
4. “What Is an ESA Letter?” summary → links `/what-is-an-esa-letter/`
5. “Do You Qualify?” condition grid → links `/conditions/` + top 6 condition pages
6. “Your Rights in Texas” summary → links `/rights/`, `/rights/fair-housing-act/`, `/rights/hb-4164-explained/`
7. M13 Pricing snapshot → `/cost/`
8. M4 Inline CTA
9. Cities served grid → `/locations/` + 5 city pages
0. M5 FAQ (6–8 questions)
1. M7 Latest from the Blog (mixed categories, 4 posts)
2. Final CTA band

T2 — Core informational page

1. M1 Hero (compact)

2. Table of contents (auto-generated from H2s) [REQUIRED where page >1,200 words]
3. Body: 4–7 H2 sections, H3 subsections allowed
4. M4 Inline CTA after section 2
5. M9 Callout where relevant
6. M5 FAQ (3–5 questions)
7. M8 Related pages
8. Final CTA band
9. M11 Reviewer box

T3 — Silo pillar

1. M1 Hero (compact)
2. Intro / overview (200–300 words)
3. Table of contents
4. Overview body sections (H2 per major subtopic)
5. **M6 Child-page grid** [REQUIRED] — links to every cluster page in the silo
6. M4 Inline CTA
7. **M7 Latest from the Blog** [REQUIRED] — mapped to this silo's blog category
8. M5 FAQ
9. Final CTA band
0. M11 Reviewer box

T4 — Silo cluster page (`/rights/*`)

1. M1 Hero (compact)
2. Quick answer box (M9) — 40–60 word direct answer for featured snippets [REQUIRED]
3. Table of contents
4. Body sections
5. M9 Legal callout (cite statute/regulation where applicable)
6. M4 Inline CTA
7. M5 FAQ
8. M8 Related pages — **must include link up to** `/rights/` [REQUIRED]
9. Final CTA band
0. M11 Reviewer box

T5 — Condition page (`/conditions/*`)

Same as T4, plus:

- Section: "How this condition qualifies under federal/Texas law"
- Section: "How an ESA helps with [condition]"
- Section: "What the therapist will ask"
- **Must link up to** `/conditions/` and across to `/requirements/` and `/apply-now/`

T6 — City page (`/locations/*`)

1. M1 Hero (compact) — H1 includes city name
2. Quick answer box (M9)
3. **M14 City info panel** [REQUIRED] — local, non-duplicated detail
4. Body sections: local housing/rental market, local landlord practices, local ordinances, ESA-friendly areas/resources
5. M4 Inline CTA
6. M5 FAQ (city-specific)
7. M8 Related pages — link up to `/locations/`, across to `/rights/` cluster pages
8. Final CTA band

> **Content warning for dev + content team:** city pages must not be templated duplicates with the city name swapped. Each requires unique local content. Enforce a minimum word count / unique-content check before publishing.

T7 — Blog hub (`/blog/`)

1. Page H1 + intro
2. Featured / latest post
3. Category navigation (6 categories, card or pill layout)
4. Recent posts grid, paginated
5. Newsletter or CTA band

T8 — Blog category archive

1. Category H1 + 100–150 word intro
2. **Link to matching silo pillar at the top** [REQUIRED — see §6]
3. Post grid, paginated (12 per page)
4. CTA band

T9 — Blog post

1. Title (H1), publish date, updated date, author (M11)
2. Featured image
3. Table of contents (posts >1,000 words)
4. Body
5. M4 Inline CTA
6. **Contextual link to matching silo page** [REQUIRED]
7. Related posts (1–2, same category only)
8. **Closing CTA to `/apply-now/`** [REQUIRED]

T10 — Support page

Flexible layout. `/apply-now/` is the conversion page: form/assessment flow, trust signals (M2), no outbound navigation distractions (consider reduced header).

---

5. Page-by-page content structure

5.1 Core pages (children of Home)

URL	Template	H1	Required sections
`/`	T1	ESA Letter Texas	See T1
`/what-is-an-esa-letter/`	T2	What Is an ESA Letter?	Definition · Legal basis (FHA) · What it is NOT · Who can write one · How it's used · FAQ
`/how-to-get-an-esa-letter-in-texas/`	T2	How to Get an ESA Letter in Texas	Eligibility check · Step-by-step process · Timeline · What you receive · Common mistakes · FAQ
`/requirements/`	T2	Texas ESA Letter Requirements	Mandatory elements checklist · Licensed provider rules · HB 4164 compliance · Validity period · Red flags of invalid letters
`/sample-letter/`	T2 + M12	ESA Letter Sample	Annotated sample (M12) · Element-by-element breakdown · What landlords look for · Download/preview note
`/cost/`	T2 + M13	ESA Letter Cost in Texas	Pricing (M13) · What's included · Refund policy · Why free/cheap letters fail · Renewal cost
`/renewal/`	T2	ESA Letter Renewal	When renewal is needed · Renewal process · Cost · What changes on re-evaluation · FAQ

5.2 Silo 1 — `/rights/` (Texas ESA Laws & Housing Rights)

Pillar: `/rights/` (T3) — H1: *Texas ESA Laws & Housing Rights* Pillar body must cover: FHA overview · HB 4164 overview · what landlords can and cannot do · then M6 grid to all 11 cluster pages · M7 pulling from `/blog/category/rights-housing/`.

URL	H1 (working)	Required sections
`/rights/fair-housing-act/`	The Fair Housing Act and Your ESA	What the FHA covers · Reasonable accommodation · Covered vs exempt housing · Enforcement / HUD complaint
`/rights/hb-4164-explained/`	Texas HB 4164 Explained	What the law says · Penalties for fraud · How it affects valid letters · Compliance checklist
`/rights/esa-vs-service-animal/`	ESA vs. Service Animal	M10 comparison table · Legal definitions · Access rights · Common confusion
`/rights/no-pet-apartments/`	ESAs in No-Pet Apartments	Why no-pet policies don't apply · How to request accommodation · Documentation to provide
`/rights/hoa-rules/`	HOAs and Emotional Support Animals	HOA authority limits · Requesting accommodation ·

		If the HOA refuses
`/rights/breed-and-size-restrictions/`	Breed and Size Restrictions	Why restrictions are overridden · Exceptions (direct threat) · Handling pushback
`/rights/landlord-denials/`	What to Do If a Landlord Denies Your ESA	Valid vs invalid denial reasons · Response steps · Filing a HUD/TWC complaint · Template response
`/rights/pet-deposits-and-fees/`	Pet Deposits and Fees	What cannot be charged · What can be charged (damages) · Recovering wrongly charged fees
`/rights/moving-with-an-esa/`	Moving With an ESA	Transferring rights · New lease paperwork · Timing checklist
`/rights/college-dorm-esa/`	ESAs in College Dorms	University housing under FHA · Request process · Major TX universities note
`/rights/fake-registries-warning/`	Why ESA Registries Aren't Valid	M9 scam warning · How registries mislead · What is actually required · How to verify a provider

5.3 Silo 2 — `/conditions/` (Who Qualifies)

Pillar: `/conditions/` (T3) — H1: *Who Qualifies for an Emotional Support Animal in Texas?* Pillar body: qualifying criteria · role of a licensed provider · evaluation process · M6 grid to all 10 condition pages · M7 from `/blog/category/qualifying-conditions/`.

All child pages use **T5**. One page each:

`/conditions/anxiety/` · `/conditions/depression/` · `/conditions/ptsd/` · `/conditions/bipolar-disorder/` · `/conditions/panic-disorder/` · `/conditions/social-anxiety/` · `/conditions/ocd/` · `/conditions/adhd/` · `/conditions/autism-spectrum/` · `/conditions/eating-disorders/`

H1 pattern: *Can You Get an ESA Letter for [Condition] in Texas?*

5.4 Silo 3 — `/locations/` (Texas City Pages)

Pillar: `/locations/` (T3) — H1: *ESA Letters in Texas — City Guide* Pillar body: statewide overview · how rules apply everywhere in TX · M6 grid to city pages · M7 from `/blog/category/texas-cities/`.

All child pages use **T6**:

`/locations/houston/` · `/locations/dallas/` · `/locations/austin/` · `/locations/san-antonio/` · `/locations/fort-worth/`

H1 pattern: *ESA Letters in [City], Texas*

> Build the city template so M14 fields are CMS-editable per city (rental stats, local ordinances, notable resources). Do not hardcode.

5.5 Blog

URL	Template	Feeds silo
`/blog/`	T7	—
`/blog/category/rights-housing/`	T8	`/rights/`
`/blog/category/qualifying-conditions/`	T8	`/conditions/`
`/blog/category/texas-cities/`	T8	`/locations/`
`/blog/category/esa-lifestyle-care/`	T8	`/conditions/` + `/rights/` (supporting)
`/blog/category/landlord-tenant-guides/`	T8	`/rights/` (supporting)
`/blog/category/news-policy-updates/`	T8	`/rights/` (supporting)

Category-to-pillar mapping must be a **CMS field on the category**, so M7 and the T8 top link resolve automatically rather than being hardcoded.

Post URLs: `/blog/post-slug/` (flat, no category in path) to keep URLs stable if a post is recategorized.

5.6 Support pages (not siloed)

URL	Template	Notes
`/faq/`	T10 + M5	Grouped accordions by topic. Outputs `FAQPage` schema
`/how-it-works/`	T10 + M3	Expanded process, timeline, what to expect
`/about-our-therapists/`	T10 + M11	Provider credentials, license verification, E-E-A-T page
`/apply-now/`	T10	Conversion page — form flow, minimal nav, no outbound links
`/privacy-policy/` `/terms/` `/disclaimer/` `/contact/`	T10	Standard legal/utility pages. Footer-linked only

6. Internal linking rules (must be enforced in build)

1. Every blog post links to **at least one page in its matching silo**. Make this an editorial checklist item; optionally enforce with a publish-time warning.
2. Each silo pillar (`/rights/` , `/conditions/` , `/locations/`) displays its **3–4 latest matching posts** via M7 — automatic, based on the category→pillar mapping.
3. Each blog category archive links once at the top to its matching pillar page (T8, step 2).
4. Posts may link sideways to **1–2 posts in the same category only**. No cross-category sideways linking.
5. Every post ends with a CTA to `/apply-now/` .
6. Every silo cluster page links **up** to its pillar via breadcrumb **and** in-content or M8.
7. Lifestyle / Landlord-Tenant / News categories link into `/rights/` or `/conditions/` — they get **no pillar page of their own**.

7. Technical requirements

7.1 Indexing — Phase 1 blocker

The site currently carries a **site-wide noindex/nofollow tag**. This must be removed before or at launch. Verify:

- No `<meta name="robots" content="noindex">` in the global head
- WordPress: Settings → Reading → “Discourage search engines” unchecked
- `robots.txt` does not disallow `/`
- Valid `sitemap.xml` submitted to Google Search Console

7.2 URLs

- Lowercase, hyphenated, trailing slash, no dates, no `/index.php`
- Folder structure must match §5 exactly — silos depend on it
- 301 redirects for any existing URLs that change
- Canonical tag on every page; self-referencing by default
- Paginated archives: `rel=prev/next` handling or canonical to page 1 where appropriate

7.3 Per-page SEO fields (CMS-editable on every page and post)

Meta title · meta description · canonical override · robots override · OG title/description/image · schema type override.

7.4 Schema

Page type	Schema
All	`Organization` , `WebSite` , `BreadcrumbList`
Pages with M5	`FAQPage`
Blog posts	`Article` (+ `author` , `datePublished` , `dateModified`)
`/how-to-get-an-esa-letter-in-texas/`	`HowTo`
City pages	`LocalBusiness` or `Service` with `areaServed`
`/cost/`	`Product` / `Offer`

7.5 Compliance & trust [REQUIRED — YMYL site]

- Medical/legal disclaimer in footer on every page
- M11 reviewer box on all health- and law-related pages, with visible last-reviewed date
- Never imply “registration,” “certification,” or “instant approval” anywhere in UI copy or button labels
- HIPAA-appropriate handling on `/apply-now/` — encrypted form submission, no PHI in URL parameters or analytics events

7.6 Performance & accessibility

- Core Web Vitals: LCP <2.5s, CLS <0.1, INP <200ms
- Mobile-first; sticky mobile CTA
- WCAG 2.1 AA: heading hierarchy (one H1 per page), alt text, focus states, 4.5:1 contrast, keyboard-navigable accordions

8. Build order

Phase	Deliverable
0	Templates T1–T10, modules M1–M14, global header/footer/breadcrumbs, CMS fields, schema framework

1	**Remove site-wide noindex/nofollow.** Submit sitemap
2	Home + 6 core pages + full `/rights/` silo (pillar + 11 clusters) + blog hub + categories *Rights & Housing*, *Landlord/Tenant*
3	`/conditions/` pillar + 10 condition pages + categories *Qualifying Conditions*, *Lifestyle & Pet Care*
4	`/locations/` pillar + 5 city pages + category *Texas Cities* (unique local content per city)
5	*News & Policy Updates* category live as ongoing freshness feed

Total page count at full build: 1 home + 6 core + 3 pillars + 26 cluster/child + 1 blog hub + 6 category archives + 4 support + 4 legal = **51 templated URLs**, plus ~45 blog posts.

---

9. Handover checklist

- ☐ All templates responsive and QA'd at 360 / 768 / 1280 / 1920
- ☐ noindex removed, GSC verified, sitemap submitted
- ☐ Category→pillar mapping field working; M7 pulling correctly on all 3 pillars
- ☐ Breadcrumbs + schema validating in Rich Results Test
- ☐ All internal linking rules in §6 implemented or documented for the content team
- ☐ Analytics + conversion tracking on `/apply-now/`
- ☐ 404 page, search, and redirect map in place
